

Flexible Testing: Student Sign-Up & Testing Guide

What is Flexible Testing?

Flexible Testing allows you to complete certain course tests in an in-person, invigilated testing space while completing the test online.

Instead of completing the test at home, you will:

- Sign up for an available testing time.
- Come to the testing room during your selected time.
- Sign in with an invigilator.
- Complete your test on your own laptop.
- Submit your test and confirm your submission with an invigilator before leaving.

Your instructor will provide you with information about which tests are part of Flexible Testing and the testing times available for your course.

Important: You are responsible for signing up for a testing time and attending the time you selected. Testing spaces are limited and are reserved based on room capacity. Walk-ins are not permitted.

Your Responsibilities

As a student participating in Flexible Testing, you are responsible for **completing your assessment in-person during the time-slot you selected. You must not do your assessment outside of the time and place you signed up for.** You are also responsible for:

- ☐ Signing up for a testing time for each applicable test.
- ☐ Checking that you have selected the correct course, test, date, and time.
- ☐ Changing your testing time if necessary, before the 15-minute deadline.
- ☐ Arriving with enough time remaining in the testing session to complete your test.
- ☐ Bringing a fully charged laptop and charger (if needed), ID, and any instructor-approved materials.
- ☐ Following your instructor's test rules.
- ☐ Keeping all other browser windows and tabs closed.
- ☐ Following all instructions provided by the invigilators.

□ Keeping your submission confirmation page open until an invigilator verifies your submission.

Sign Up for Your Testing Time

You will automatically be enrolled in the Avenue to Learn course shell “Flexible Testing Sign-up”. You will use this course shell to select your testing time.

Once you are in the course shell, you can navigate to the Communication tab and scroll to the bottom for the Groups option. You will see your course and the assessment as a category. Once inside that category, you can sign up for a time slot.

For example:

- Flexible Testing Sign-Up ---> Communication ---> Groups
- Category: MATH 1AA3 – Assessment 1
 - Available Groups:
 - Wednesday, October 7 — 5:30–7:30 p.m.
 - Thursday, October 8 — 5:30–7:30 p.m.

You are responsible for enrolling yourself in one available group/time slot for each test. Testing times are first come, first served. Once a testing time reaches its maximum capacity, it will no longer be available for students to select.

Below are screenshots to assist you.

Step 1: Select the course shell

Step 4: Go to your course assessment

☐ Category Name

☐ MATH 1AA3 – Assessment 1 ▾

Step 5: Select your time-slot

☐ Group Name

☐ Thurs Oct 8 5:30 – 7:30 p.m. ▾

☐ Wed, Oct 7 5:30 – 7:30 p.m ▾

You Can Change Your Testing Time

If your plans change, you can change your selected testing time up to 15 minutes before the start of the testing time.

After that point, the final list of students for that testing session will have been provided to the invigilators, so changes can no longer be made through the sign-up system. **Please note:**

- If you want to sign up for a testing time beginning at 7:30 p.m., you must make your selection by 7:15 p.m.
- It is your responsibility to make sure you have selected a testing time for every test you are expected to complete through Flexible Testing.
- If none of the available testing times work for you, contact your instructor.
- Do not simply arrive at the testing room without a booking. Walk-ins cannot be accommodated.

Before Your Test

Before coming to the testing room, make sure you know:

- The correct course and test you are writing.
- The date and testing time you selected.
- How long you have to complete your test.
- Which materials, if any, your instructor has approved for use.
- Any testing requirements communicated by your instructor.

Bring with you:

- Your laptop with enough battery to complete your test.
- Your laptop charger, if needed. Please note that the testing room has a limited number of electrical outlets, so do not rely on being able to plug in.
- Your McMaster ID card and/or government-issued ID.
- Any materials specifically approved by your instructor for the test.

All other belongings must be placed in the designated area along the wall during your test.

Arrive During Your Scheduled Testing Time

You may arrive at any point during the testing time you selected.

However, you are responsible for making sure you arrive early enough to have sufficient time to complete your test.

Important: Your testing time is not necessarily the length of your test.

For example, if you have a one-hour test and your selected testing time is 7:30–9:30 p.m., you may arrive at any point during that window, but you must make sure you have enough time to complete the test before the testing session ends at 9:30 p.m.

If you arrive late, you may still be permitted to write your test, but the testing session will end at the scheduled time.

Check In With the Invigilator

When you arrive at the testing room:

- Check in with an invigilator.
- Present your McMaster ID card and/or government-issued ID.
- The invigilator will record your attendance and arrival time.
- Follow the invigilator's instructions about where to sit and where to place your belongings.
- Log in to your laptop and prepare to access your test.

Access your test through the portal specified by your instructor (Avenue to Learn, childsmath, etc). You must complete the test during the testing time for which you registered.

Your instructor determines the rules for each test, including which materials are permitted.

While you are writing your test

You may not have any other browser windows or tabs open. You must use your laptop only for the test and any materials specifically permitted by your instructor. You are not permitted to use other devices during the test. Invigilators will be present to help ensure that testing conditions are maintained.

Your instructor may choose to use Respondus LockDown Browser for your test. If this option has been selected, you will be required to install the software on your device and complete a Respondus practice quiz before your test. The practice quiz helps ensure that the software is installed correctly and allows you to identify and resolve any technical issues before your scheduled test. We recommend completing the practice quiz as early as possible, as it can be taken at any time before your test.

If you experience a technical problem while writing your test, immediately notify an invigilator.

This includes problems such as:

- Your test not loading.
- Your computer freezing.
- An issue submitting your test.
- Another technical problem affecting your ability to complete the test.

The invigilator will respond according to the procedures they have been trained to follow.

Do not leave the testing room without speaking to an invigilator if you are experiencing a problem with your test.

Submit Your Test

When you have finished your test, you can submit it. After submitting, you will receive a submission confirmation page. Do not close the submission confirmation page. Keep the confirmation page open on your screen until an invigilator has verified your submission.

Once the invigilator has confirmed your submission, follow their instructions for signing out and leaving the testing room.

What If You Miss Your Testing Time?

Your selected testing time is recorded and will be checked against attendance at the testing room. If you do not attend your scheduled testing time, you can sign up for a different time to complete the assessment. However, you are responsible for ensuring you can complete your assignment.

You do not need to submit an MSAF to change your time slot if you miss the test as long as you can sign up for another slot. You have until 15 minutes prior to the session you will attend to change your scheduled testing time.

If you miss all testing times, submit an MSAF and contact your instructor as soon as possible.

Accommodations

If you have an approved accommodation through SAS, and your accommodations are not met within this Flexible Learning system or you would prefer to write with SAS, you should continue to follow your approved accommodation process. If you're unsure about whether your accommodations are met through this system, please contact your SAS Program Coordinator.

Signing up for a Flexible Testing time does not replace, cancel, or change an approved accommodation.

If you have questions about how your accommodation applies to a Flexible Testing session, contact your instructor before your test

Questions?

If you have questions about your test, test rules, permitted materials, or available testing times, contact your instructor.
